

Pier Building and Opera House - Richland County History Room photo.

Pier Building and Opera House, 100 South Main Street - 1892, 1921.

Constructed in the same year in the Classical Revival influenced design very similar to the Union Block, the W.H. Pier Block and Opera House at 110 South Main Street is less well preserved. Eventually purchased by the Coffland Brothers Mercantile Company who initially rented the store when it was constructed in 1892, the Pier Building also housed the Pier Opera House until 1909 when it was remodeled to accommodate the expansion of the Coffland Company.
