

Let's discover our wildlife together!

A citizen science project where YOU can help!

### How it works

Volunteers set up trail cameras

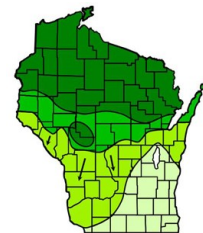

Upload photos to database

*It's a bear!*

Log on to web & identify animals in photos

■ Abundant  
■ Common  
■ Occasional  
■ Rare

Use information to learn about wildlife

This project will launch in select counties in spring 2016.

Training and supplies will be provided to selected participants.
