

APPENDIX "A" - CHAPTER 430  
 RICHLAND CENTER SEWER RATES  
 As approved by the Commission \_\_\_\_\_

The following rates shall be in effect for consumption following the regular meter reading date in the month of \_\_\_\_\_, \_\_\_\_:

CATEGORY "A" (Typical Residential or Commercial Users):

- Minimum Monthly Charge \$ \_\_\_\_\_
- +Volume Monthly Charge \$ \_\_\_\_\_ /1,000 gallons

CATEGORY "B" (Atypical Commercial/Industrial Users):

- Minimum and Volume Charges as in "A"
- +Surcharge when over 270 ppm BOD \$ \_\_\_\_\_ /lb of Excess
- +Surcharge when over 250 ppm TSS \$ \_\_\_\_\_ /lb of Excess

SEPTIC TANK WASTES:

- Volume Charge \$ \_\_\_\_\_ /1,000 gal
- +Surcharge for over 270 ppm BOD  
(Estimate @ 5,000 ppm) \$ \_\_\_\_\_ /1,000 gal
- +Surcharge for over 250 ppm TSS  
(Estimate @ 15,000/ppm) \$ \_\_\_\_\_ /1,000 gal
- Total Charge for Septic Tank Waste \$ \_\_\_\_\_ /1,000 gal

HOLDING TANK WASTES:

- Volume Charge \$ \_\_\_\_\_ /1,000 gal
- +Surcharge for over 270 ppm BOD  
(Estimate @ 750 ppm) \$ \_\_\_\_\_ /1,000 gal
- +Surcharge for over 250 ppm TSS  
(Estimate @ 1,500/ppm) \$ \_\_\_\_\_ /1,000 gal
- Total Charge for Holding Tank Waste \$ \_\_\_\_\_ /1,000 gal

PERMIT AND INSPECTION FEE  
 FOR NEW LATERALS: \$ \_\_\_\_\_

CONNECTION CHARGE FOR  
 NEW LATERALS: \$ \_\_\_\_\_

LATE PAYMENT PENALTY: Bills not paid within the 20 day prompt pay period shall be assessed one percent (1%) of the unpaid balance.

DISHONORED CHECK PENALTY: A penalty in the amount established by the Public Service Commission of Wisconsin shall be charged for each check returned from the drawee bank which was dishonored for insufficient funds or for any other reason. The penalty shall be charged against the sewer billing of the account for which the dishonored check was tendered.

APPENDIX B - CHAPTER 430

The permit exceedence charge shall be calculated as follows where:

AD = Actual wastewater discharge of BOD in a day

PD = Permitted 5 day average daily load for BOD in lbs/day

CB = Surcharge per pound of BOD as established by paragraph 430.09(8) and Appendix A

PEC = Permit exceedence charge

- Level 1: If  $AD \leq PD(1.45)$ ,  
Then  $PEC = AD - PD(1.2) \times CB$
- If  $AD > PD(1.45)$ ,  
Then  $PEC = PD(1.45) - PD(1.2) \times CB +$  applicable charges from Levels 2-6
- Level 2: If  $AD \leq PD(1.70)$ ,  
Then  $PEC = AD - PD(1.45) \times (2)CB +$  applicable charges from Level 1
- If  $AD > PD(1.70)$ ,  
Then  $PEC = PD(1.70) - PD(1.45) \times (2)CB +$  applicable charges from Levels 1, 3-6
- Level 3: If  $AD \leq PD(1.95)$ ,  
Then  $PEC = AD - PD(1.70) \times (3)CB +$  applicable charges from Levels 1 and 2
- If  $AD > PD(1.95)$ ,  
Then  $PEC = PD(1.95) - PD(1.70) \times (3)CB +$  applicable charges from Levels 1, 2, 4-6
- Level 4: If  $AD > PD(1.95)$ , and  
If this is the first time the industrial permit holder has exceeded the 1.95 PD Level in the calendar month,  
Then  $PEC = AD - PD(1.95) \times (5)CB +$  applicable charges from Levels 1-3
- Level 5: If  $AD > PD(1.95)$ , and  
If this is the second time the industrial permit holder has exceeded the 1.95 PD Level in the calendar month,  
Then  $PEC = AD - PD(1.95) \times (7.5)CB +$  applicable charges from Levels 1-3
- Level 6: If  $AD > PD(1.95)$ , and

If the industrial permit holder has previously exceeded the 1.95 PD Level more than two times in the calendar month,  
Then  $PEC = AD - PD(1.95) \times (10)CB + \text{applicable charges from Levels 1-3}$
